Edinburg Data Points

AEP Texas offers Energy Saving Open Program for Small Businesses!

Available Incentives

AEP Texas (Central Division) offers the following Open incentives based on your peak electric demand.

*Customers with ≤ 100 kW demand:
Up to \$650/kW saved*

Customers are eligible for incentives of up to 80% of total project costs depending on project savings

Eligible Projects

Eligible energy efficiency measures include indoor lighting, outdoor lighting and refrigeration. The Program pays a higher percentage of project costs, when compared to other commercial energy efficiency programs. Incentives, actual savings, and payback periods vary depending on the equipment installed, building characteristics, energy use patterns, age of existing equipment, location, and other parameters specific to your project.

Eligible Measures

- LED lighting upgrades*
 - Tube lights, bulbs, and fixtures
- Fluorescent lighting upgrades
- Occupancy sensor installations
- LED exit sign retrofits
- Anti-sweat heater controls for refrigerator doors
- And more!

*LED upgrades must be approved by either Design Lights Consortium, ENERGY STAR®, or DOE LED Lighting Facts.

It's your bottom line – take control of your energy choices.

For more information, call (855) 496-3857 to speak with a program representative or visit aepdexasefficiency.com.

Disclaimer: Products and services are provided solely by approved participating service providers. AEP Texas does not sell goods or services in its energy efficiency programs.

Energy saving solutions for small business customers

Open can help lower your energy bills!

Becoming energy efficient can mean big savings for your business. Want to know how your small business can reduce energy use with AEP's Open Program?
